

# Transforming Communities with an Innovative Approach to Recovery & Reentry

# Life Learning Center Overview

- ▶ We deliver a holistic, integrated continuum of education and care to help our “at-risk” citizens step up to their highest potential.
- ▶ Many socially oriented service programs provide only temporary relief; through barrier removal across the five domains of life (physical, emotional, relational, financial, and spiritual), we equip individuals with the necessary tools and resources to envision, achieve, and sustain a better future for themselves and their families.

We’re building a caring and serving community by helping people learn, secure, and sustain a better way of living through gainful employment. The people we serve become healthier, happier, and more productive individuals working to change their future.
